SKILLS

Programming Language: Python, Embedded C
Backend Development & Database: Flask, FastAPI, REST API Development, SQL, MySQL
Frontend Technology: HTML5, CSS3
Embedded Systems : Embedded Systems, ESP32, STM32, UART, IoT, PCB Designing, 3D Designing
Software/Tools: MATLAB, Arduino IDE, KiCad, Tinkercad, CST Studio Suite, VS Code, Git, Github

EXPERIENCE

Full-Stack Developer Intern June 2026 - July 2026

BOSCH Limited

- Developed a full-stack web application (React, Python FastAPI, SQLite) to automate shop-floor compliance evaluations across 25 manufacturing teams.
- Engineered a custom backend calculation engine that reverse-engineered mathematical rules, successfully eliminating persistent "ghost data" errors and manual entr .
- Built a dynamic frontend dashboard featuring historical data snapshotting, dynamic weightage validation, and automated Excel report generation for plant leadership.

PROJECT

DLR TOP Audit Automation System

- Developed a full-stack **shop-floor audit system**, a centralized enterprise dashboard for **BPS** compliance and leadership evaluation.
- Integrated features like **Python FastAPI scoring**, React dynamic validation, concurrent **API fetching**, SQLite snapshotting.

Special Forces Defense Glove

- Developed a **Special Forces Defense Glove**, a wearable tactical combat system for soldier safety and combat assistance.
- Integrated features like **non-lethal electric shock, stun light, RGB tactical signaling, distraction laser, and protective shield** for defense operations.
- Designed a **retractable claw mechanism** and **pin-shooter-inspired attachment** for close-range combat support.

Smart Home Security System

- Developed a **Smart Home Security System** using **biometric authentication, laser intrusion detection, and non-lethal shock deterrent** for enhanced home protection.
- Integrated **fingerprint-based access control** and real-time intrusion detection for improved security and quick response.
- Designed a compact embedded security solution combining **sensors, laser systems, relay modules, and electronic protection mechanisms**.

EDUCATION

Poornima College of Engineering, Jaipur September 2023 - May 2027

- Bachelor of Technology in Electronics & Communication CGPA - 8.0/10.0

ACHIEVEMENTS

- Winner, ICI FEST'24 - Teck Connect Exhibition Conducted by Swami Keshvanand Institute of Technology.
- Runner-up at Pragya Bharat Event, Organized by India International Science Festival (IISF) at IIT Guwahati.
- Awarded First Position at the TEK - Connect 2024 Exhibition organized by Rajasthan Technical University, Kota.
- Secured Second Position in the Abhivyakti - Science Model Exhibition at HSS Fair 2024, Jaipur.
